

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1-8. (cancelled)

9. (new) Magazine for screws of the type that includes a shank with a thread and a head at one end of the shank, including a form-stiff framework (1) having a front side (4) and a back side (5) between which a plurality of spaced-apart bores (10) extend, each one of which is delimited by an endless limiting wall (11) of a resilient, demolishable nature, and of which at least some house screws (12) located at a distance from each other, wherein the framework (1) is made of a number of corrugated boards arranged side by side.

10. (new) Magazine for screws of the type that includes a shank with a thread and a head at one end of the shank, including a form-stiff framework (1) having a front side (4) and a back side (5) between which a plurality of spaced-apart bores (10) extend, each one of which is delimited by an endless limiting wall (11) of a resilient, demolishable nature, and of which at least some house screws (12) located at a distance from each other, wherein a number of screws (12) are arranged in at least one longitudinal row having at least one empty bore (10) between adjacent, screw-housing bores in the row, longitudinal

rows of empty bores being arranged on both lateral sides of the longitudinal row of screws.

11. (new) Magazine for screws of the type that includes a shank with a thread and a head at one end of the shank, including a form-stiff framework (1) having a front side (4) and a back side (5) between which a plurality of spaced-apart bores (10) extend, each one of which is delimited by an endless limiting wall (11) of a resilient, demolishable nature, and of which at least some house screws (12) located at a distance from each other, wherein said bores are arranged in a plurality of longitudinal rows disposed side by side and connected together to impart stiffness to said framework.
